

ONUR AHMET YEMEZ

Front End Developer (Frontend-Focused Full-Stack Experience)

PROFILE

Front-End/Full-Stack Web Developer with a strong engineering background. Experienced in developing modern, scalable web applications using React, Next.js, and TypeScript.

Comfortable in designing authentication flows, data models, and server-side logic using modern backend services.

A former Mechanical Engineer who brings analytical thinking, clean code implementation, and real-world problem-solving skills to production-ready software.

EXPERIENCE

Web Developer Intern — PickYourPour (10/2025 – Present)

- Developed and shipped production-ready frontend features used by real users
- Implemented authentication flows using Firebase and secure backend integrations
- Collaborated with international teams in an agile environment
- Improved UI performance, accessibility, and scalability

Independent Full-Stack Projects (11/2024 – Present)

- Designed and developed multiple full-stack web applications from scratch
- Built authentication flows, database schemas, and API integrations
- Implemented modern frontend architecture using React, Next.js, and TypeScript
- Actively use GitHub for version control and project collaboration

FEATURED PROJECTS

The Paradise Hotel

Full-stack hotel booking platform with secure authentication, database-driven content, and payment-ready architecture.

Live: paradisehotel.live

GitHub: github.com/Onuryemez54/The-Paradise-Hotel

Travel Route App

Interactive travel planner with maps and Redux state

GitHub: github.com/Onuryemez54/Travel-Route-App

EDUCATION

Web Development Program — Code2Career AB, Sweden (Remote)

Project-based real-world training

B.Sc. Mechanical Engineering — Bartin University
